Clyde Timothy R. Sumabat

Full Stack Developer

Muntinlupa City, Philippines | +63 966 201 9278 | soapmac19@yahoo.com.ph | Portfolio | GitHub | LinkedIn

Summary

Full Stack Developer with 2+ years building and running production web systems in Laravel, Vue.js and MySQL. Sole in-house developer at GoPrime Technology and GoSolar Philippines, owning the company portal and single sign-in (GoPrime Track), two sales CRMs and the ecommerce storefronts end to end, from schema design to deployment. Background in graphic design and I.T. administration. Best in Coding, KodeGo PH. Open to remote (GMT+8) and hybrid roles.

Technical Skills

- **Backend:** PHP, Laravel, MySQL, REST APIs, OAuth 2.0 and SSO, Python, MVC architecture, role based access control, multitenancy
- **Frontend:** JavaScript (ES6+), Vue.js, HTML5, CSS3, Bootstrap 5, Tailwind CSS, Material UI, responsive and mobile first design
- **CMS and Ecommerce:** WordPress, WooCommerce, Shopify (custom Liquid and JavaScript)
- **Tools and Deployment:** Docker containerization, Git, GitHub, Bitbucket, SourceTree, Plesk, Vercel, XAMPP, phpMyAdmin, Figma
- **Also familiar with:** React.js, Node.js, SEO and web performance optimization

Experience

Full Stack Developer (I.T. Developer) | GoPrime Technology Corp. / GoSolar Philippines | May 2024 to Present

- Built and run GoPrime Track, the company portal used by every department: single sign-in (OAuth 2.0 with PKCE) with automatic account provisioning for the other company apps, HR attendance from six fingerprint scanners, firewall and internet line monitoring, IT assets and ticketing, fleet with live GPS, a training platform and Meta ads reporting.

- Wrote office-side Python services in Docker that read the fingerprint scanners and firewalls (REST API and SNMPv3) and push to Track over HTTPS, catching up after outages and restarting stalled bridges on their own.
- Built the GoSolar CNI CRM for commercial and industrial clients: customer accounts, sales leads and project pipelines in live dashboards used daily by management, with role based access so sales, operations and management each see only their own scope.
- Built the Bluetti Philippines CRM covering the full retail sales cycle from inquiry to fulfillment. Reporting dashboards give management a live view of the sales funnel and replaced scattered spreadsheet tracking.
- Built the first multitenant ERP with Warehouse (MPRF), Accounting (RFP) and I.T. Helpdesk modules, replacing paper requests with tracked digital approvals. Its modules later moved into GoPrime Track.
- Launched three ecommerce storefronts: Bluetti Philippines on Shopify with custom Liquid, plus Anker Solix and Skyworth Energy on WordPress and WooCommerce, and own frontend development for the company brand sites.
- Mentor and supervise annual cohorts of I.T. interns on Git workflow, Laravel fundamentals and frontend best practices.

Selected Projects

- **GoPrime Track, 2025 to now** (Laravel, Vue.js, MySQL, Python, Docker): Company portal and identity provider for the other company apps. Twelve modules including HR attendance from fingerprint scanners, network monitoring, IT assets and ticketing, fleet GPS tracking, a training platform and Meta ads reporting.
- **GoSolar CNI CRM** (Laravel, Vue.js, MySQL): In house CRM for midscale to industrial clients. Tracks customer accounts, sales leads and project pipelines through live dashboards used daily by management, with role based access by team and accounts provisioned from GoPrime Track.
- **Bluetti Philippines CRM** (Laravel, Vue.js, MySQL): Customer and order tracking covering the full retail sales cycle from inquiry to fulfillment, with inventory and reporting dashboards that give management a live view of the sales funnel.
- **GoPrime ERP, 2024 to 2025** (Laravel, Vue.js, MySQL): Multitenant ERP with Warehouse (MPRF), Accounting (RFP), I.T. Helpdesk and project tracking, each brand on isolated data. Retired after its modules moved into GoPrime Track.

Earlier Experience

Graphic Designer | EasyPC Computing Inc. | July 2021 to July 2023

- Produced campaign creative and reusable design templates for Facebook, Instagram and the corporate website, plus product thumbnails and banners for Lazada and Shopee listings.

Specialist, I.T. and Creative Services | Great Depot Inc. | June 2020 to April 2021

- Sole I.T. administrator for the head office and retail branches. Deployed in house servers and configured pfSense VPN firewalls for secure tunneling between sites.

2017 to 2020: BMS Operator, Omniworx Inc.; I.T. Staff and Graphic Artist, Designer Blooms; Property Specialist, Suntrust Properties Inc.; Graphic Artist (On the Job Training), Ink N Print.

Education

Full Stack Web Development Program | KodeGo PH | 2023 to 2024

- Awarded Best in Coding for technical performance across the program cohort.

Bachelor of Science in Information Technology | Lyceum of Alabang, Muntinlupa City | June 2014 to March 2018

- Included a 486 hour supervised industry practicum.
